

Differential Geometry, Calabi-Yau Theory, and General Relativity

A conference in celebration of Shing-Tung Yau's 70th Birthday

May 2-5, 2019
Harvard University
Science Center, Hall C

Speakers

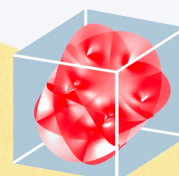

Lydia Bieri, University of Michigan
Tristan Collins, MIT
Simon Donaldson, Imperial College
Fan Chung Graham, UC San Diego
Nigel Hitchin, Oxford University
Jun Li, Shanghai Center for Mathematical Sciences
Chiu-Chu Melissa Liu, Columbia University
Kefeng Liu, UCLA
Alina Marian, Northeastern University
Duong H. Phong, Columbia University
Richard Schoen, UC Irvine
Andrew Strominger, Harvard University
Nike Sun, MIT
Clifford Taubes, Harvard University
Chuu-Lian Terng, UC Irvine
Valentino Tosatti, Northwestern University
Karen Uhlenbeck, University of Texas
Cumrun Vafa, Harvard University
Mu-Tao Wang, Columbia University
Edward Witten, IAS
Stephen Yau, Tsinghua University

Organizers

Wilfried Schmid, Harvard University
Clifford Taubes, Harvard University
Cumrun Vafa, Harvard University
Horng-Tzer Yau, Harvard University

Sponsored by the Harvard University Department of Mathematics and the Center of Mathematical Sciences and Applications.
