

“5-year-old: I wish we all had infinity dollars  
Me: That’d wreck the economy  
5: I just-  
Me: Go to your room until you understand inflation”

Going broke on an infinite ROI scheme

A talk by  
Elliot Glazer

**Abstract**

We show that an uncountable sequence of trades, even with an infinite return on investment, inevitably results in you going broke. If time permits, we will also show this without using choice.

Friday, March 26<sup>th</sup>, at 12 noon
